Welcome to UC Irvine

UC Irvine is located in coastal Southern California, approximately 40 miles south of Los Angeles and 80 miles north of San Diego. Situated in dynamic Orange County, the main campus is home to one of the nation's most selective research universities. A major intellectual and cultural center, UC Irvine engages the community through many public activities and events. Renowned researchers have won Nobel Prizes – two in chemistry and one in physics. Professors have taught with additional upgrades under way or in the planning stages. Endowment funding – money coming from outside sources, including federal and state agencies, industry contracts and private foundations in support of UC research – totaled $261 million in 2007-08. Understanding strong community support, UC Irvine matched $28 million in 2007-08. With an endowment valued at $2.2 billion as of June 30, 2008, the University of California Irvine Foundation oversaw private fundraising efforts for the campus and, with the assistance of alumni and community leaders, helps ensure UC Irvine’s future as a world-class university.

UC benefits the community and the world in countless ways through its scholarly, artistic, creative and economic contributions. UC Irvine’s School of Medicine has launched an $11 billion fundraising campaign in support of a strategic plan that will leverage our greatest strengths to shape our future and ensure the campus continues to inspire excellence. It follows a research, teaching and public service mission in the decades ahead.

UC Irvine is a center for quality education that fosters the passionate and enthusiastic pursuit of knowledge. Our students are equipped with the tools of analysis, expression and critical understanding necessary for leadership in today’s world. UC Irvine is continuously ranked among the nation’s best universities – public and private – with achievements in a broad range of fields that have garnered high national rankings for many schools, departments and programs. These UC Irvine researches have won Nobel Prizes – two in chemistry and one in physics.

The University of California, Irvine combines the strengths of a major research university with the bounty of an incomparable Southern California location. With a commitment to cutting-edge research, teaching, learning and creativity, UC Irvine is a driving force for innovation and discovery that benefits our local, national and global communities in many ways.

UC Irvine is a center for quality education that fosters the passionate and enthusiastic pursuit of knowledge. Our students are equipped with the tools of analysis, expression and critical understanding necessary for leadership in today’s world.
Founded in 1965, the University of California, Irvine combines the strengths of a major research university with the bounty of an incomparable Southern California location. With a commitment to cutting-edge research, teaching, learning and creativity, UCI is a driving force for innovation and discovery that benefits our local, national and global communities in many ways.

With more than 27,000 students, 1,300 faculty members and 1,500 staff, UCI is among the fastest-growing campuses in the University of California system. Increasingly a first-choice campus for students, UCI ranks among the top U.S. universities in the number of undergraduate applications and continues to admit highly qualified applicants.

UCI’s largest employer, UCI generates an annual economic impact on the county of $4.2 billion.

Excellence in Academics and Research

UCI is a center for quality education that fosters the passionate and enthusiastic engagement of students. Our graduates are equipped with the tools of analysis, expression and critical understanding necessary for leadership in today’s world.

UCI is consistently ranked among the nation’s best universities – public and private – by a broad range of factors that have garnered high national rankings for many schools, departments and programs. These UCI research achievements have won Nobel Prizes – two in chemistry and one in physics.

In 2007-08, the university invested $282 million in research and graduate programs, an increase of nearly $50 million since 2001-02.

A major intellectual and cultural center, UCI engages the community through many public activities and events. Renowned individuals speaking on campus include President Jimmy Carter, His Holiness the XIV Dalai Lama, former Soviet leader Mikhail Gorbachev and Kenyan environmental advocate Wangari Maathai.

Fueling Growth and Prosperity

In 2007-08, the university invested $282 million in capital construction projects, with additional upgrades under way or in planning stages. Endowment funding – money coming from outside sources, including federal and state agencies, industry contracts and private foundations in support of UCI research – totaled $266 million in 2007-08.

Underwriting strong community support, private gifts to UCI topped $109 million in 2007-08. With an endowment valued at $261 million as of June 30, 2008, the University of California Irvine Foundation assets include private proprietary funds for the campus and, with the assistance of alumni and community leaders, help ensure UCI’s future as a world-class research university.

UCI benefits the community and the world in countless ways through its scholarly, artistic, creative and economic contributions. UCI now has embarked on a $1 billion briefing campaign in support of a strategic plan that will leverage our greatest strengths to shape our future and ensure the campus continues to inspire excellence as it fulfills its research, teaching and public service mission in the decades ahead.

UC Irvine is located in coastal Southern California, approximately 40 miles south of Los Angeles and 80 miles north of San Diego. Situated in dynamic Orange County, the university’s main campus is home to the UC Irvine Medical Center, the leading edge of Orange County’s health care and research community.

Founded in 1965, the University of California, Irvine combines the strengths of a major research university with the bounty of an incomparable Southern California location. With a commitment to cutting-edge research, teaching, learning and creativity, UCI is a driving force for innovation and discovery that benefits our local, national and global communities in many ways.

With more than 27,000 students, 1,300 faculty members and 5,200 staff, UCI is among the fastest-growing campuses in the University of California system. Increasingly a first-choice campus for students, UCI ranks among the top U.S. universities in the number of undergraduate applications and continues its annual increase in highly competitive academic profiles. Orange County’s largest employer, UCI generates an annual economic impact on the county of $4.2 billion.

Excellence in Academics and Research

UCI is a center for quality education that fosters the passion and enthusiastic exploration of knowledge. Our graduates are equipped with the tools of analysis, expression and creative understanding necessary for leadership in today’s world. UCI’s commitment to undergraduate education, and a growing number of professional schools and programs of academic excellence, and a robust commitment to undergraduate research and graduate programs, are the greatest strengths to shape our future of a strategic plan that will leverage our scholarly, scientific, creative and economic contributions. UCI now has embarked on a planning stages. Endowment funding—money coming from outside sources, including federal and state agencies, industry contracts and private foundations in support of UCI research—to totaled $328 million in 2007–08. Underwriting strong community support, private grants, UCI topped $303 million in 2007–08. With an endowment valued at $2.09 billion as of June 30, 2008, the University of California Irvine Foundation steward private fundraising efforts for the campus and, with the assistance of alumni and community leaders, helps ensure UCI’s future as a world-class research university.

Fueling Growth and Prosperity

In 2007–08, the university invested $282 million in capital construction projects, in support of UCI research – totaling $262 million in 2007–08. With an endowment valued at $2.09 billion as of June 30, 2008, the University of California Irvine Foundation steward private fundraising efforts for the campus and, with the assistance of alumni and community leaders, helps ensure UCI’s future as a world-class research university.

UC Irvine is located in coastal Southern California, approximately 50 miles south of Los Angeles and 15 miles east of Orange County. Orange County, the main campus in Irvine and UC Irvine Medical Center in the nearby city of Orange are reachable via Interstate 5. UCI reaches beyond its classrooms and laboratories to teach, learn, create and discover.

A Prime Resource for the Community

UCI reaches beyond its classrooms and laboratories to address societal issues and support human development. UC Irvine Medical Center, Orange County’s only university hospital, recently opened a new state-of-the-art facility housing the latest technologies and strengthening UCI’s ability to provide specialized medical and surgical treatments to the region’s citizens.

A major intellectual and cultural center, UCI engages the community through many public activities and events. Renowned individuals speaking on campus include Nobel Peace Prize winners, such as former President Jimmy Carter, His Holiness the XIV Dalai Lama, former Soviet leader Mikhail Gorbachev and Kenyan environmental activist Wangari Maathai.
