Breaking New Ground in California Art

Two extraordinary collections. A bold, creative vision. A space ripe for transformation. This is the foundation for the UCI Institute and Museum for California Art. Here, the expansive 3,000-plus piece Buck Collection and The Irvine Museum Collection will come together to create a breakthrough interdisciplinary experience that combines art, research, and science to educate, challenge and inspire. This is more than a museum. It is a beacon of light for new ideas and exploration of California art.

Visit the collection, engage in the research, Shine Brighter.
